D14.1 Contributions to the relevant management deliverables

This is a “virtual” deliverable inserted into the NEF because the NEF required at least one deliverable for each work package. It was necessary because of the separation between scientific management and administrative management in FP7 projects. The deliverable covers the contributions of WP14 to all semestrial management reports (D13.2.1 – D13.2.4), periodic reports (D13.4.1 – D13.4.4) and public annual reports (D13.3.1 – D13.3.4) over the whole project duration.

In particular, WP14 was responsible for the sections *Progress toward the global objectives* and *WP progress* of the semestrial management reports; and the sections *Publishable summary*, *Project objectives for this period* and *Work progress and achievements during the period* of the periodic reports. WP14 was fully responsible for the public annual reports.
